Skilled Trade Academy:

Carpentry, Electrical, Plumbing and Welding

Participants in the construction summer camp at Central Campus will rotate between carpentry, electricity, plumbing and welding with the opportunity of learning about some basic hand tools used in construction and assemble a small project that involves each component of Skilled Trades to take home and use.

JUNE 28th -JULY 2nd

Can you protect the Internet Camp?

CYBERSECURITY

In the Cybersecurity Camp you will learn how to protect the Internet!

Do you like puzzles? Are you interested in computers & how to fix computers?

JUNE 28th -JULY 2nd

ACES (Aviation Camp Experience for Students)

will excite any young person who has ever looked up when an aircraft has flown overhead. ACES is designed to stimulate young people using real world, modern-day applications of aviation technology. Activities, such as a full-size flight simulator, are hands-on and range from simple to complex in order to demonstrate various fields within aviation and aerospace industry. ACES will inspire students to take Introduction to Aviation at Central Campus, laying the foundation for an exciting career in the air.

JULY 12th -JULY 16th

ADVENTURES IN ARCHITECTURE CAMP

Students will learn about the tools and technology architects use like 3D printing, virtual reality, computer modeling, and hand drawing while developing their own problem-solving skills. Through design thinking and design making, students will learn how to make our communities great places to live, work, and play.
