Let's start working about why the students aren't...  
 The first step is to understand the current situation...  
 We need to identify the root causes of the problem...  
 This involves looking at the data and the feedback...  
 We should consider the needs and expectations...  
 It's important to involve the students in the process...  
 We need to create a supportive environment...  
 This means providing resources and training...  
 We should also consider the role of the staff...  
 They need to be equipped with the right skills...  
 Finally, we need to monitor and evaluate the progress...  
 This will help us to make adjustments as needed...

...the students aren't...  
 We need to focus on the learning outcomes...  
 This means ensuring that the students are...  
 We should also consider the role of the staff...  
 They need to be equipped with the right skills...  
 Finally, we need to monitor and evaluate the progress...  
 This will help us to make adjustments as needed...
